SUPPLEMENTARY INFORMATION: DOE published a Request for Information (“RFI”) pertaining to the energy conservation standards for external power supplies on May 20, 2020. 85

FR 30636. The RFI initiated a data collection process to consider whether to amend DOE's energy conservation standards for external power supplies, and whether amending the standards for external power supplies would result in significant energy savings and be technologically feasible and economically justified. DOE requested submission of written comment, data, and information pertaining to these standards by July 6, 2020.

On June 24, 2020, the Association of Home Appliance Manufacturers (“AHAM”), Consumer Technology Association (“CTA”), and Information Technology Industry Council (“ITI”), interested parties in the matter, requested a 30-day extension of the public comment period for the RFI that DOE previously published in the *Federal Register* on May 20, 2020. (AHAM, CTA, and ITI, EERE-2020-BT-STD-0006, No. 2) The comment period for the RFI closed on July 6, 2020.¹

After carefully considering this request, DOE has determined that a reopening of the comment period to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is reopening the comment period and will accept comments until **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**, to provide interested parties additional time to prepare and submit comments. Accordingly, DOE will consider any comments received by this date, to be timely submitted.
